 - Databases: MySQL, Access
 - Content Management Systems: Joomla, WordPress
 - Design tools: Photoshop
 - 3D modeling and animating tools: Blender
 - Parallelization: OpenMP, MPI, GridGain

Work experience:

I am still a student and therefore I don't have any real work experience beside summer schools. I am though actively seeking for any opportunity to broaden my work experience.

Interests and activities:

I am particularly interested in Artificial Intelligence and Biotechnology but I like to work on any field regarding computer technology. I am also very interested in computer security related topics.

I am actively helping people on various discussion boards mostly regarding Linux and other computer problems. I am also a well-known member of Slovenian technology forum Slo-Tech where I help, ask for help and discuss on intellectual topics. I like to explore and am constantly discovering new things to learn. The latest one is Arduino microcontroller.

As of my hobbies I enjoy cycling, mountain walking, training Muay Thai boxing and having fun with my radio controlled airplane models.
